

## NOTICE TO PURCHASER

The real property, described below, which you are about to purchase is located in the Williamson County Municipal Utility District No. 13. The District has taxing authority separate from any other taxing authority, and may, subject to voter approval, issue an unlimited amount of bonds and levy an unlimited rate of tax in payment of such bonds. As of this date, the rate of taxes levied by the District on real property located in the District is \$0.5718 on each \$100 of assessed valuation. The total amount of bonds, excluding refunding bonds and any bonds or any portion of bonds issued that are payable solely from revenues received or expected to be received under a contract with a governmental entity, approved by the voters and which have been or may, at this date, be issued is \$55,200,000, and the aggregate initial principal amounts of all bonds issued for one or more of the specified facilities of the District and payable in whole or in part from property taxes is \$30,505,000.

The District has the authority to adopt and impose a standby fee on property in the District that has water, sanitary sewer, or drainage facilities and services available but not connected and which does not have a house, building, or other improvement located thereon and does not substantially utilize the utility capacity available to the property. The District may exercise the authority without holding an election on the matter. As of this date, the amount of the standby fee is \$0.00. An unpaid standby fee is a personal obligation of the person that owned the property at the time of imposition and is secured by a lien on the property. Any person may request a certificate from the District stating the amount, if any, of unpaid standby fees on a tract of property in the District.

By law, a district located in the extraterritorial jurisdiction of a municipality may be annexed under the requirements of Texas Local Government Code Chapter 43. When a district is annexed, the district is dissolved.

The purpose of this District is to provide water, sewer, drainage, flood control, water quality, park and recreational facilities, including solid waste collection and disposal service, street repair, street and security lighting and any and all work that a municipal utility district may engage in and services rendered in the District.
